Fully Automated

7+

Science Formulas Used

Auto

PDF + Email Delivery

WHAT IT AUTOMATES

Macro Calculation

Protein, carbs & fat targets using Mifflin-St Jeor, Katch-McArdle & ISSN 2017

BMR & TDEE Computation

Basal metabolic rate & total daily energy expenditure calculated per individual.

Meal Blueprint

Daily calories split across user-defined meals with per-meal P/C/F targets.

Grocery List

Precise food quantities — eggs, chicken, rice, oats, fats — auto-calculated by macro

PDF Report Generation

Branded, print-ready PDF created automatically with full plan, stats & roadmap

Email Delivery

PDF sent to client email instantly — no manual sending, no attachments to manage.

Lead Logging

Every submission auto-saved to Google Sheets — name, email, goals, macros

BMI & Health Score

WHO BMI classification, ideal weight range, body composition score out of 100.

12-Week Roadmap

Progressive weekly targets and milestones generated for the client's specific

White-Label Branding

Your business name, colors & contact on every PDF and email — fully customizable

WHAT THE CLIENT RECEIVES

Personalized Macro Plan

Per-Meal Blueprint

Grocery Quantities

12-Week Roadmap

Branded PDF via Email

Health Score / BMI

All outputs delivered automatically. Client receives a print-ready PDF within seconds of form submission.

HOW THE AUTOMATION WORKS

01

Share the Link

Send one URL to your client — embed it anywhere.

02

Client Fills Form

60 seconds. Name, email, goal, stats. Nothing else.

03

Engine Calculates

7 science formulas run instantly in the background.

04

PDF Generated

Branded report built automatically with full plan inside.

05

Email Auto-Sent

PDF delivered to client inbox. You do nothing.

06

Lead Logged

Submission saved to your Google Sheet automatically.
